Arkansas' Chief Magistrate in a Disgraceful Row.

PAT IN A LEGISLATOR'S FACE.

The Insult Was Returned and the Governor Then Drew His Revolver and Was Prevented from Becoming a Murderer

by the Interference of Friends. LITTLE ROCK, April 8.—The spectacle of an honorable member of the Arkansas legislature, livid with rage, spitting in the face of the governor of this commonwealth, quickly returned by a violent emission of executive saliva upon the angered features of the lawmaker, and a flourish of firearms in the hands of the governor, was witnessed in the lobby of Glason's hotel here yesterday afternoon and was the result of sensational charges of bribery in connection with the railroad commission bill sprung in the house of representatives on Saturday by Mr. Yancey, of Phillips county. Mr. Jones, of Marion county, on Saturday arose to a point of personal privilege and denounced Governor Clarke as being at the bottom of the charges. He said that Governor Clarke was a demagogue, and was going around like an assassin in the night with a knife, stabbing in the back men who were his peers.

Yesterday afternoon Clarke met Jones in the lobby at Gleason's and requested a private interview with him. Jones replied that he would accompany the governor nowhere, and that if the chief executive had anything to say to him he must make it known. Hot words followed, and in a flt of anger Jones spat in the governor's face. Governor Clarke, trembling with anger, returned the insult, and as quick as a flash had drawn his revolver, and the difficulty might have resulted in bloodshed but for the quick action of bystanders, who disarmed the governor. Governor Clarke was later arrested by a constable and released on his own recognizance. When arraigned in court this morning he pleaded guilty to the charge of assault and paid his fine. Further trouble may ensue.

In a statement of the occurrence Representative Jones said: "I had just left the dining room at the Gleason hotel and taken a seat in the office on the east side, quietly smoking a cigar, and not expecting any trouble whatever. Suddenly I heard the front door open very abruptly, and on looking around I saw Governor Clarke enter the office. I saw from his countenance that he meant trouble. I vacated my chair about the time he reached me. The governor, in a very abrupt manner, said: 'Come back here with me,' at the same time motioning toward the rear. I was totally unarmed, and felt that he intended to kill me. I said: 'No, I will not do it. If you have anything to

say to me you can say it here. He then caught me by the right arm with his left hand, and repeated the command to go to the rear of the office, at the same time pulling me a step or two. I then stopped and again declined his invitation. He then deliberately spat in my face. I returned the insult by spitting in his face. When I did this, he loosed my

that my only chance was to knock him down, and I struck with all my might at his face with my left hand. He sprang back toward the door, and my blow failed to reach him. He was still reaching for his postol. I sprang forward, grappled him and caught him around the waist, pressing both arms to his side, but leaving his arms free to act from the elbow down. By this time he had his pistol drawn, and Representative Roberts rushed forward and grasped it.

"Just then Representative Pope also got hold of the pistol. He struggled to free the gun, while the governor said: 'Turn that pistol loose ' Roberts declined, when the governor said; 'D-n you, Roberts, turn that pistol loose.' About this time some one grabbed me around the waist. I requested that the pistol be taken from Clarke, and then release him. Roberts and Pope declined. I then said: 'Give me a pistol, and turn him loose with his weapon.' When the governor saw that he was overpowered he requested Pope to turn the pistol loose and said: 'I will not kill him; I promise you positively I will not kill him.' Senator Ward then requested me to release my hold on the governor, and asked that I go to my room, saving that he would take care of Governor Clarke. Finally I did go to my room and remained there ten seconds, and then returned to the office, but the governor was gone."

Governor Clarke said he did not care to discuss the trouble through the public press, further than to say that he did not go to the hotel with the view of making trouble, but only to tell Mr. Jones that he must desist from lugging his name into controversies. The trouble which followed was not of his making.

TRAGEDY AT A CHURCH DOOR. Worshipers at Wichita Witness a Wife Murder and Suicide.

WICHITA, Kan., April 8.—A horrible tragedy occurred on the steps of the Lincoln Street Cheistian church as the congregation were walking out of the church after the services were over about noon yesterday. On the sidewalk in front of the church Walter Scott fired a bullet into the brain of his wife, and she fell at his feet a corpse. While the people stood aghast at the terrible deed Scott placed the muzzle of the revolver in his mouth and sent a bullet crashing into his brain, and fell dead almost within reach of his wife's arm. At the sight of the bloody tragedy two or three women fainted and much excitement prevailed. When Mrs. Scott was shot she was walking out of the church with her brother. Mr. and Mrs. Scott were married about two years ago, when she was 17 and he 19. They separated about a yearago. Scott returned to Wichita a week ago. He went to church yesterday, and as he walked out asked his wife if she would return to him. and upon her refusal sent a bullet into

Killed by a Single Blow.

LA PORTE. Ind., April 8.—A murder was committed here yesterday, the victim being Henry Fabenheim, a house painter, aged 25 years, whose death resulted from a single blow of his father-in-law's fist. Fabenheim had a long time terrorized his young wife, being especially abusive when drinking. About I o'clock yesterday morning, while intoxicated, he went to his home, where both families live in a double house. He at once commenced to abuse his wife, and finally choked her. Her screams awakened her father, Jacob Ott, and as he entered the door she warned him to be careful, as her husband was armed with a hammer. Without further ado Ott struck him a powerful blow in the head with his fist, knocking him senseless. He soon revived, however, but commenced to spit blood, and died in a few hours.

Run Down on a Railroad Bridge. PHILADELPHIA, April 8.—George R. Winfield, aged 35 years, was struck and instantly killed by a Reading railroad train yesterday. Winfield and a companion named William Rambo, followed by an unknown man and woman, were crossing the Domino Lane railroad bridge, on the outskirts of the city, when a train approached. They all stepped on the south bound track only to find another train bearing down ce them. Rambo leaped to the ground, a distance of thirty feet, and escaped with slight injuries, and the man and moment cared their lines by second and woman saved their lives by scrambling over the railing on to one of the piers of the bridge, but Winfield became bewildered and was run down.

Exciting Scene in a Belgian Court. BRUSSELS, April 5.—There was an exciting scene in a law court herefollowing the

trial of two anarchists who were convicted of writing pamphlets, etc., denouncing the military and upholding anarchy. The prisoners were quiet enough during the progress of the trial but when the jury returned a verdict of guilty they arose and in the most violent language insulted the judge and jurymen. Many friends and sympathizers of the anarchists were in the court room, and they joined in shouting imprecations against the court officials. The attempts of the judge to restore order were without avail, and the uproar continued until gendarmes cleared the court

WRETCHED SOLDIERY.

Many of Them Mere Boys, Scarcely Able to Carry a Gun-A Rebel Victory That Was Not Reported-Eight Thousand Insurgents Under Arms.

TAMPA, Fla., April 8.-A large number of passengers arrived by the steamer Mascotte last evening from Havana. From them the derails of the late events in connection with the revolution were obtained. A Cuban makes the statement that an effort was made last Wednesday night to plunge Havana into darkness by cutting the electric light wires at the central lighting station, in the next building to which was stored a quantity of powder. The men were surprised by the soldiers and police during their preparations, and were obliged to flee. Kerosene cans, well filled, and other incendiary material were found where the men had been working near the powder storage. The supposition is that when the city became dark the powder was to be exploded and other insurrectionary

acts accomprished. During the two hours' stoppage of the steamer at Key West the Havana passengers learned of the belief among Key West sympathizers that a plan was afoot to as-5as-inate Martinez Campos on his arrival at Havana. This plan was being matured on the assumption that Campos will land at Havana on his arrival, about the 15th inst. He will not do so, however, as he will first touch Puerto Rico. A full statement of the affairs on the Island of Cuba will be sent to Puerto Rico by government officials, who will await Campos, and from this he will determine at what point in Cuba he will land. He will probably disembark at Santiago de Cuba, where he will establish headquarters and begin his campaign.

Among the arrived pasengers is a merchant of Hayti, who disembarked at Santiago de Cuba. where he remained two days. He saw much of the Spanish troops camped and arriving at Santiago. He states that they are mostly wretched appearing, many being boys, some scarcely able to carry guns. This merchant says that while he was there it was reported that the rebels were about to attack the outskirts of the town, and a thousand newly arrived Spanish troops were led out to meet the rebels. The encounter occurred near the city, and only 680 of the 1.000 troops returned therefrom, 320 being killed, wounded or captured by the rebels.

No news of this engagement had been given out by the Havana authorities up to Saturday last, nor was it referred to by arriving insurrectionists. A Cuban from the eastern end of the island who is in close touch with occurrences in the disturbed districts and who is advised of the he journeys, states that Maceo and his party is much larger than is believed. He says the schooner Honora, which landed the party, was filled with arms and ammunitions. Cubans make the statement that Maceo and his party landed on March 27, instead of March 31, as given out by the government officials at Havana. Captain Periquito Perez has joined the Cuban cause. He is a nephew of the Spanish

general known as the tiger. It is further stated by the informant that Maceo, who sailed in a steamer from Colon to Fortune Island, had been there two or three weeks before landing in Cuba, awaiting the schooner Honora, which had received \$4,000, prepaid, for the undertaking. The informant therefore denounces the government announcement that the captain of the Honora was killed by the rebels to escape the payment as an effort to deter other captains from undertaking a like service. Three hundred Spanish troops endeavored to prevent Maceo's landing, but his comrades were numerous enough to withstand the troops.

From a rebel emissary who has arrived here the plan of apportionment of most of the notable rebel leaders is stated thus:

Chief Antonio Maceo will proceed to the province of Santiago, Rafael Roderiguez to Camaguey, of which Puerto Principe is the capital, and Maximo Gomez, when he arrives from Santo Domingo, if he has not already done so, will rally the rebels at Las Villas. It is expected that various sections will rise on the arrival of these

A general centralization and contest will follow. The fight will not occur until the rains and fever come to aid the rebe arms. This authority states that between 7,000 and 8,000 rebels are with arms now Cuban general Aguirre, who is confined

George W. Aguirre, a nephew of the at Havana, arrived by last night's steamer He goes to New York and Washington to urge action for the release of his uncle, against whom, he claims, there is no evidence of any character.

THE PRESIDENT INDIGNANT.

He Bitterly Denounces a Ministerial Scandal Monger.

WASHINGTON, April 8 .- When the report of a speech made in a Methodist conference at Salem, Mass., by Rev. Dr. Lansing and his subsequent published interview accusing the president of intemperance was shown to Mr. Cleveland he said, with considerable warmth: "This is simply an outrage, though it is not the first time a thing of this kind has been attempted. I cannot avoid a feeling of indignation that any man who makes claim to decency, and especially one who assumes the role of a Christian minister, should permit himself to become a disseminator of wholesale lies and calumnies not less stupid than

they are cruel and wicked. "I easily recall other occasions when those more or less entitled to be called ministers of the gospel have been instrumental in putting into circulation the most scandalous falsehoods concerning my conduct and character. For the sake of the Christian religion I am thankful that these scandal mongering ministers are few, and on every account I am glad that the American people love fair play and justice, and that in spite of all effort to mislead them they are apt to form a correct.estimate of the character and labors of their public servants."

A Mother's Fatal Fright.

CLEVELAND, April 8.—Elizabeth White-way, aged 30, died at her home, corner of Lorain and Root streets, of nervous prostration caused by fright, and her mother, Mrs. William Herr, of 1599 Wilson avenue, is lying at death's door from injuries received at the time her daughter was frightened. Two weeks ago, as Mrs. Herr was descending a flight of stairs, with Mrs. Whiteway's infant child in her arms, carrying a lamp, she fell. The lamp exploded and set fire to the baby's clothing. Mrs. Whiteway extinguished the flames and saved the baby's life. Immediately she was taken ill, and never left her bed after ward. Mrs Herr was badly hurt by the fall and her death is expected at any time. Mrs. Whiteway was the of the most beautiful woman in the city, and was chosen five years ago to represent Germania in the great German day parade.

A Dishonest Bank Cashier Confesses. COLUMBIA, Pa., March 8.-Thomas M. Grady, eashier of the First National bank of Marietta, is a defaulter for an amount exceeding \$18,000. He confessed his crime and furnished \$15,000 bail for trial. The money went in stock speculation. The money was taken by making false entries, taking deposits from depositors and failing to give them credit for the money and in drawing drafts and failing to enter them. Grady's bondsmen are all moneyed men and fully able to pay the amount of the defaulter's bond, which is \$15,000. The defaulter is making some restitutions from his private funds, so the bank will lose but little or nothing by its cashier's dishonesty.

SALLIE DEAN'S MURDER.

Startling Developments in Maryland's Latest Tragedy.

HER SCHOOL TEACHER ARRESTED.

It Is Charged That He Was the Principal in the Murder of His Pupil, Who Was Killed to Prevent Her Testifying Against

BALTIMORE. April 8 .- Grant Cochran, the school teacher of Sallie Dean, the 14year-old girl who was outraged and murdered, was arrested by Baltimore detectives near Harmony, Caroline county, and brought to Baltimore. It is understood that Cochran's arrest was brought about through a statement in the nature of a partial confession made by Marshall E. Price to Chief of Police Frey. Cochrun, so for as known, has made no statement. The police seem to think they have a case against both men, but surround it with

an air of mystery.

Cochran is about 30 years old and popular in the county. He is said to have been on very friendly terms with the Dean

It is charged that Price and Cochran met the girl on her way to school and attempted to assault her in a lonely spot. She called the men by name and said she would expose them as 500n as she reached home. Then it was decided to kill the girl. Price says that Cochran was the instigator of the crime. Both of the accused

are well connected. At the request of the county authorities Detectives Gault and Seibold were sent down to help solve the mystery. They soon spotted Marshall E. Price, a 21-yearold blacksmith of Harmony, who had served on the coroner's jury and had shown remarkable eagerness in every way to help find the murderer. The detectives encouraged him to talk, and took him about with them.

He told them that he had been so engrossed on the subject of the crime that he had dreamed of it more than once. The last time he dreamed of it was Tuesday night. Then, in his sleep, a vision of the scene came over him, and very deeply impressed him. It was very vivid. He told how he, following the mysterious imagina-tion of his sleep, in company with one of the searchers, had walked directly to the spot and dug up the knife—a long, keen and dangerous weapon, with blood still upon it—with which the child's throat was

He spoke also of other articles which had been buried by the murderer, including a little piece of ribbon which Sallie Dean wore that fatal day. He had found these, he said dramatically, after 3,000 persons had searched the ground over and obtained no clew. In his statement further on he became excited, made an apparent blunder, and, turning deathly pale, would have fallen, but one of the officers present in the magistrate's room caught him. He had been seized with a slight fainting spell, and Dr. Enoch George was hastily called in. Price then resumed his statement, which bore little relevancy, occasionally protesting his innocence.

The detectives then formally made the affidavit, charging "Marshall E. Price with having murdered Sarah E. Dean on the 26th day of March," and Sheriff George H. Berry took him to jail. When the news of the arrest was circulated public feeling ran high, and the detectives determined to hurry their prisoner to Denton. The talk came to the ears of Mrs. Price, the prisoner's young wife, but in no way has her faith in him faltered. She insists on going to Denton with her husband and the officers indulged her.

When finally she became convinced that he was actually arrested for the crime, the young wife, who is but 19 years old, broke down, but maintained her faith in her husband's innocence.

New York's Indicted Officials.

NEW YORK, April 8.—The park commissioners and police officials indicted by the grand jury were arrested and taken to police headquarters. George C. Patrolmen Cassidy, Miller and Thrall were bailed out at \$3,000 each. PENNSYLVANIA LEGISLATURE.

Senators Want to Extend the Session to June 13.

HARRISBURG, April 8.—The senate will resume business this evening, after a ten days' rest. At the same time the house will commence consideration of bills on second reading. The senate and house calendars are crowded with bills, many of which will never see the light of day. The members are beginning to realize this. and are striving to get special orders for their pet measures at the bottom of the calendar.

This will be a busy week at the state capital. Tomorrow evening Charles Heber Clark, secretary of the Manufacturers' club, of Philadelphia, will address the logislature in the chamber of the house on the silver question. Mr. Clark is an advocate of free coinage of silver and will deliver the address at the request of Senator Cameron. Charles Emory Smith, editor of the Philadelphia Press, will reply

to Mr. Clark on Wednesday evening. The senate education committee will give a hearing tomorrow afternoon to the Quakers, Dunkards, Mennonites and other opponents of the religious garb bill. The same day the house committee on fish and game will hear the opponents of the bill legalizing fishing with eel weirs and baskets at certain seasons of the year. The house ways and means committee is still holding meetings on the new revenue bill. The measure is approved by the state administration, and will be brought out of committee. It will never become a law in the form in which it was introduced.

Governor Hastings is expected to send to the senate this week the nomination of Thomas L. Hicks to the controllership of of Philadelphia, to succeed Thomas M. Thompson, whom Mayor Warwick has appointed director of public works. The friends of Senator Penrose and Thomas, who are opposed to Hicks' nomination; declare that he cannot be confirmed. On the other hand, the governor's friends claim there is no doubt of the Philadelphian's confirmation.

The date of the final adjournment may be fixed by the logislature this week. The senate wants to get away on June 13, but the house wants to quit a week or two sooner. If the session should be extended until June 13 it will beat the record under the constitution of 1873 by one day, the session of 1835 having extended to June 12.

Threstened His Mother with a Revolver. PHILADELPHIA, April 8.—The domestic troubles of the Coolidge family have assumed a startling aspect by the arrest of the eldest son, Alfred G. Coolidge, on the charge of using threats of murder to extort money from his mother. The social prominence of the family attracted much interest when on Tuesday last Mrs. Coolidge caused the arrest of her husband, George E. Coolidge, for non-support of herself and her 18-year-old son, William. She now avers that the son, Alfred, who is arrayed on the father's side, followed her to her horselect Wilson-bard Mrs. home last Wednesday and demanded \$25. When she refused be drew a revolver and pointed it at her, with a threat to shoot if she did not comply. William, however, persuaded him to leave the house. Young Coolidge has been held in \$1,000 bail for

Evidence of Wife Murder.

PITTSTON, Pa., April 8.—The village of Hamtown, near this city, is excited over what appears to be a sensational wife murder. Mrs. George Windish, a German woman, about 50 years old, was found dead yesterday in a clothes closet in the second story of her home. There were severe wounds on the side of the head, and the skull had been fractured. Near the body was found a bloody chisel, and on the floor of the room lay several pieces of clothing saturated with blood. These were identified as—having belonged to the woman's husband, who is missing. It is supposed that the murder occurred last Thursday night.

Alleged Incendiaries Acquitted.

OMAHA, April 8.—Priest Karmenski and twelve members of his congregation, who have been on trial for burning St. Paul's church, were released today and the case dismissed. The county attorney determined that the testimony was not sufficient to convict.

Triple Murder in Texas. Houston, Tex, April 8.-Four young

men, all under 20 years of age, Lawrence Reynolds, J. Preston, Bud and Sid Preacher, were driving into the city on their return from a day's hunt. The white boys opened fire on the negroes with Winchesters, killing two negro men and one woman. The white men were arrested.

Oscar Cannot Sleep.

LONDON, April 8.—Oscar Wilde is suffering from insomnia. The prison surgeon on Saturday night gave him a sleeping draught, but it had no effect upon him, and he continued pacing his cell nearly all night long. He cuts almost nothing, although he is allowed to have food sent to him from outside. Another prisoner cleans his cell. He is not allowed to smoke, and is allowed to receive only a single visitor daily.

Clergymen investigate Milwankee Vices. MILWAUKEE, April 8.-The Rev. Walter J. Patton, of Asbury Methodist Episcopal

church, and another preacher, whose name is not positively known, spent nearly the whole of Saturday night in a 'tour of the Milwaukee tenderloin district. They were accompanied by a well known man about town, and they saw things, Mr. Pattor. says, that eclipse for moral deprayity anything he has ever seen, and he has made investigations of the same kind in Chicago and New York. They also visited the gambling houses. Mr. Patton intimates that the evidence he secured will be used in a campaign against vice that has been mapped out by well known people.

A De-perate Negro Murderer.

JACKSONVILLE, April 8. — Alexander Simms, alias Kid Charlie, a negro, added nother victim to his list of killed yesterlay, besides wounding three others. Simms shot and killed a young colored boy named Napoleon Stucks on Saturday night. The officers got on his trail yesterday, and chased him about two miles to a barn in the western part of the city. When Simus saw he was discovered he opened fire with a pistol at the officers.
They returned the fire, but as the negro could shoot without exposing his body they were unable to hit him. During the firing Policeman Minor was shot in the breast and killed almost instantly. Two negroes who had joined in the chase after Simms were shot in the hip, one perhaps fatally. Simms finally surrendered, and last night, to prevent a lynching, was se-cretly taken to St. Augustine.

Suicide Follows Disgrace.

Boston, April 8.—Charles L. Farnum, the 17-year-old adopted son of Mrs. Sarah Farnum, of this city, who shot himself in the right temple and left breast Saturday evening, died at the city hospital yesterday. Several days ago young Farnum was accused of stealing his mother's watch, and she called in two police officers to look up the case. This incident apparently weighed on the lad's mind, and before shooting himself he left a note confessing the theft and asking his mother's forgiveness.

Neatly Trapped.

Dr. Black, once the leading minister of Glasgow, and another clergyman, having a holiday in Cumberland, attended a little Scotch church and purposely went late and got into a remote corner of the church so that they might not be seen by the oliciating minister. They learned, to their dismay, that they had been "spotted" when they heard the minister say in the intercessory prayers, 'Lord, have mercy on thy ministering servants who have popped in on us so unexpectedly, one of whom will preach in the atternoon, and the other in the evening!"-San Francisco Argonaut.

The Present Moment.

The mill cannot grind with the water that is past. As little can it grind with what is to come. It can grind only with what is passing through it. We can make no use of time past. As little use can we make of time to come. We can make use only of the passing moment. -Ram's Horn.

Liked Harmony.

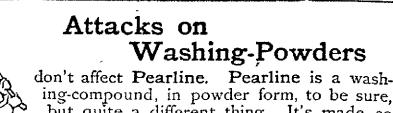

A short time ago a young woman of fashion in Washington went to one of the taxidermists of the Smithsonian institution and wanted a favor. She had with her a bright canary bird, alive and chirruping, and she very much desired the taxidermist to kill and stuff the bird for her. She went on to say tht she had "hunted all over the city for a bird of just this shade," because she wanted the plumage to match in color a new gown which sho was having made. The bird that she brought she wanted stuffed for an ornament for her person.-Kate Field's Washington.

THE ELECTRIC MILK CAR.

Making Regular Trips, But Farmers Slow to Use This Means of Transporta-

The Traction Company is running its milk and freight car, but milk producers are slow in giving it their patronage, mony prefering to haul it to town.themselves.

One farmer, who was asked if he expected to patronize the company, replied: "Why, it would cost me a dollar a day to send my milk that way." It is doubtful if one dollar a day will pay for the time of a man and team and the wear and tear of making a trip of several miles to the condensery, to say nothing of the money most men spend, which they would not if they were at home where there are no temptations.

But sending milk to market with the aid of electricity is something new, and like most things that are new and novel, does not commend itself immediately to most people. In time, however, the Traction Company's milk car will be regarded as almost a necessity.

SHE DISTINCT SOCIETY.

The Official Lunctions of Washington Life Have No Charm For Mrs. Wilson. The elevation of William L. Wilson

of pleasing personality and charming manners. Mrs Wilson has no aste for official society, however, and although her husband was 12 years a congressman she bas spent very little time in Washington and has

WRS. W. L. WILSON, been seldom seen at official functions. While it is probable that she will endeavor to discharge the more important social duties devolving upon her as a cabinet woman, there is no doubt that Mrs. Wilson prefers the seclusion of the home circle at Charleston, in West Virginia. This home is only about two hours' ride from Washington, and so the Wilsons have never taken a house at the capital.

Mrs. Wilson reads a good deal, is interested in church work and has personally supervised the education of her children, of whom there are four. Mrs. Wilson was a daughter of Professor Welling, president of Columbian university, and was married about 20 years She believes that her husband should find complete rest in the family circle, and says: "He can find plenty of people to worry him about politics, so when he comes into the home we never discuss politics. I prefer other subjects and he hears enough of it outside." She accompanied Mr. Wilson to Mexico after congress passed his famous tariff bill, and succeeded in nursing him back to health.

Mrs. Wilson is described as a slender woman of medium height who dresses in black and wears her dark hair waved about the temples. She has very bright clark eyes, a cordial smile, is quietly self possessed, and not only is blessed with a sense of the humorous, but among her friends can give expression

SENATOR GEORGE TO RETIRE.

He Served With Distinction In the Mexican and Civil Wars.

After service of 14 years in the United States senate, James Z. George of Mississippi announces that he will retire from office on the expiration of his term, March 3, 1899. Although Senator George has still four years to serve, the

legislature will elect his successor in January next, and a lively canvass for the place is in prospect.

Mr. George was born in Monroe county, Ga, Oct. 20, 1826, and removed when eight years of age to Mississippi, where he was educated in the common schools of Carroll county. He served in the Mexican war as a private in the First regiment of Mississippi volunteers, commanded by Colonel Jefferson Davis. He acquitted himself creditably in the campaign, and participated in the battle of Monterey.

Returning to his home he studied law and was admitted to the bar. In 1854 he was elected reporter of the high court of errors and appeals and was re-elected in 1860. He prepared and published ten volumes of the reports of the decisions of that court, and afterward published a digest of all the supreme court decisions from the admission of the state into the Union to 1870.

In 1861 he was a member of the convention in Mississippi which passed the ordinance of secession and he voted for and signed that instrument. When the war broke out, he entered the Confederate army as captain in the Twentieth regiment of Mississippi volunteers. Re afterward served as brigadier general of state troops and as colonel in the Confederate army.

He returned to his law practice at the close of the war, and in 1875-6 was chairman of the Democratic state executive committee. In 1879 be was appointed one of the judges of the supreme court of Mississippi and was elected chief justice. He resigned in February, 1881, to accept an election to the United States senate, and has been twice re-elected. In the senate Mr. George is distruguished for his industry. and endurance and has more than once shown his ability to hold the floor as many hours as the politic lexigencies of the case might require. He is chairman of the committee on agriculture and ferestry and a member of the education and labor, judiciary, transportation routes and woman suffrage committees.

BORGE H. THOMPSON. MACARDELL. CITY EDITOR E NICKINSON. - BUSINESS MANAGES

MONDAY, APRIL 8, 1895.

The New York Times of Sunday, March 31st, was a thirty-two page paper and contained seventy-two columns of advertising, the greatest amount of advertising that ever appeared in an issue of the Times. As showing the wonderful growth in popularity of the Sunday paper, it may be of interest to note that the first Sunday edition of the Times, printed thirty-four years ago, contained but eight pages and only nine columns of advertisements.

The "reformers" at Albany have decided to reduce the tax on liquor dealers, provided for by the Kerns Raines excise bill, and \$300 instead of \$500 will be the maximum fee. As a concession to the brewers, beer licenses will be provided for at \$150 in New York and Brooklyn, \$100 in cities of 50,000 inhabitants and \$75 elsewhere. The bill, thus amended, is to be put on its passage, this week, and the pressure of caucus dictation is to be brought to bear on all Republican legislators who may be reluctant to support a measure that, while purporting to be high license, really opens wide the way to unrestricted traffic in intoxicants.

The most amazing political measure of the session, the Saratoga charter bill, was signed by the Governor, Friday. It takes from the people of that village the right to elect a village president and vests that right in a board of trustees, to be elected by districts so gerrymandered that although the village is naturally Democratic it will be impossible for the Democrats to control the board. The bill also legis. lates out of office certain Democratic boards and commissioners, while certain other boards and commissioners, Republicans, are retained in office. There was no pretense of unfitness or inefficiency as to any of the Democratic commissioners legislated out. The measure was simply a political grab.

President Cleveland was rightously indignant when shown a report of the speech made at Salem, Mass., by Rev. Dr. Lansing, a Methodist minister, in which he accused the President of intemperance, and named Building Contract Awarded three occasions when he said he had Mr. H K. Wilcox, to-day, awarded and others who were present at the dinners referred to, denounce Dr. Lansing's statements as malleious. contemptible and absurd lies. Dr. Lansing, who had not scrupled on the wildest hearsay to assall the reputation of the President, when asked, yesterday, his authority for saying that Mr. Cleveland had been drunk in public, evaded the question by the sniveling answer to be expected from a smug hypocrite: "I never talk with reporters on Sunday."

The sweeping reductions in telephone rates that are being made all over the State, wherever there is | Hot Cross Bun Sale. reason to fear competition from rival companies, are conclusive proof of the utter falsity of the assertions of the monopoly have succeeded, however, in putting to sleep the "reformers" on the committee to which the bill reducing rates was referred, and it is understood at Albany that the bill will not be reported. The telephone monopolists think it cheaper to spend a few thousand dollars on "reform" legislators than to give the public the benefit of the lower rates that it has the right to demand, now that the expiration of patents has relieved the local com panies of the royalties they have had to pay the parent company.

THE INCOME TAX DECISION

The Tax on Incomes from Rents and State and Municipal Bonds Unconstitutional—The CourdEventy Divided on Other Points and the Rest of the Law etands.

BY UNITED PRESS.

Washington, D. C., April 8.-The decision of the Supreme Court in the income tax cases was rendered to a crowded court room at noon, to-day. Among those present were Attorney General Olney, J. G. Moore, Lawyer Wilson, who sought to enjoin the enforcement of the tax, ex Secretary Boutwell, Senators Hill, Mitchell and Hunton, ex Attorney General Garland and a great number of attorneys

At 1 o'clock Chief Justice Fuller finished reading the decision, on the question whether or not a tax on rents from real estate is a tax on real estate and therefore a direct tax, and announced that the Court decided It was a direct tax and, as provided for in the present law, unconstitutional.

The opinion declares that the tax on municipal and State bonds is unconstitutional. On all other points the Court is equally divided and no opinion thereon is given.

The desision of the Supreme Court declaring the tax upon rentals and State and municipal bonds unconstitutional, it is said by officials of the Department of Justice does not effect the legality of the remaining portions of the law.

Treasury officials estimate that the effect of the decision will be to reduce the revenue from the income tax about one-half, so that it will not yield over \$15,000,000.

PALM SUNDAY SERVICES

Large Congregations at St Jeseph's and Grace Churches

Yesterday was Palm Sunday, and appropriate services were held at St. Joseph's and Grace churches, and large congregations were present at all the services. There were no decorations at St. Joseph's, but the palms were blessed and distributed to members of the congregation.

At Grace Church the decorations were elaborate and beautiful. The palms were sent from Verons, Fia, by Mr. Charles G. Dill, and were tastefully arranged about the altar, the rood screen and choir stalls, and after the services were distributed among the children.

The morning service was conducted by Rector Evans. In the evening, Rev. Lawrence B. Ridgely, rector of St. Paul's Church, Salt Lake City, preached an interesting sermon on "Mormonism," giving many facts from his own observations that were new to the congregation.

OBITUARY. Mary Boyd Monell,

Mrs. Mary E. Boyd, wife of Superintendent of the Poor John P. Monell, died, yesterday morning, at her residence at Orange Farm, after an iliness of only a few days. She had been subject to inflammatory rheumatism and this, together with an acute attack of influenza, was the cause of death.

Mrs. Monell was a daughter of Robert Boyd and Margaret Wright and was born June 20th, 1849, on the Boyd homestead, near the Hamptonbuigh church in the town of Hamptonburgh. She was married October 23, 1861, to John P. Moneli and is survived by her husband and two daughters, Julia A., wife of E. P. Ostrander, of this city, and May E at home; also by two sisters, Delia, wife of Isaac Kells, of Montgomery, and Miss Frances J. Boyd, of Montgomery.

Mrs. Monell lived on the old homestead until about eighteen years ago when her husband engaged in the hotel business, first at Lagrange and afterwards at Goshen. Mr. Monell was elected Superintendent of the Poor, twelve years ago and eight years ago, having been appointed resident Superintendent at Orange Farm they removed there. Soon afterwards Mrs. Monell was appointed matron of the Alms House and asylum and so discharged her duties as to win the love of all the unfortunates who were entrusted to her care and to earn a reputation for courtesy and hospitality to all visitors, and for rare efficiency and executive

JESSE M. CRECORY'S CRIMES. The Wife Murderer Likely to Becover from His Self-Inflieted Wounds-A Coshen Boy's Wild and Wayward Career-an Odd Coincidence

Jesse M. Gregory, who shot and killed his wife in New York, Friday night, and who was arrested. Saturday morning, at his lodgings on Hudson street, after he had shot himself three times and cut himself on the left wrist, is likely to recover.

Gregory's crime has a local interest from the fact that he is the son of James S. Gregory, a well known insurance and real estate agent of Goshen. Jesse Gregory is well remembered by many in and about Goshen. He was wild and reckless, given to dissipation even when a young man. He left Goshen some eighteen years ago, after he had learned the carpenter's trade, and went to Hackensack, N. J. There he married, fifteen years ago, the woman whose life he took Friday night. Her name was Clara Ootty, and she was the daughter of Michael Cotty, janitor of the Hackensack club house.

Two years ago, Gregory stabbed Nicholas Moran, a West Shore telegraph operator, whom he declared he found in his wife's bed room. Moran recovered and it is understood that Gregory's father settled the case. At all events Gregory was not prosecut ed. The family, however, removed from Hackensack to New York, where Gregory obtained employment as a longshoreman.

His wife left him some time ago, and went, with her three children, to live with her slater. Gragory's jealousy of her still continued and finally culminated in the tragedy of Friday night.

The Gregory family is respected and esteemed in Goshen and much sympathy is felt for them in the disgrace brought on them by this mad crime of a son and brother. Jesse Gregory has three brothers, John, James and Arthur, of whom the latter is a resident of Goshen. A sister is the wife of Fred C, Hayne, of Goshen.

It is a singular coincidence that the Gregory family in this city should be connected with so many murders. Jesse Gregory is a relative of Noah Gregory, whose wife was murdered at Eight-and-a-Half station, Oct. 14th, 1891, and a distant relative of Walter Gregory and wife, who were murdered at VanBurenville, Sept. 24th, 1865.

An Organization Effected at Last-Mr. A V. Boak Elected President-Clerk Seward and superintendent VanDuzer Reappointed-Rules of Proceedure Adopted-Other Business,

An adjourned meeting of the Board of Water Commissioners was held, Saturday evening, and an organization was effected by the election of Mr. A. V. Boak as president, all the members of the Board voting for him, except Mr. Boak.

On taking the chair, Mr. Boak said that it had been the custom of the Board to elect the member longest in office to the Presidency, but that this year, Mr. Fellows and Mr. Rog ers, when asked before the annual meeting if they would vote for him had refused to do so. The result had been that precedents had been reversed and the youngest member, Mr. Rogers, elected. Mr. Rogers had, however, declined to serve, and as a consequence the pay rolls could not be met and necessary work could not be done. After a month of child's play, those who had opposed bim were now anxious to have him for President of the Board. He did not care for the office, but a sense of duty to the public impelled him to end the farce that two members of the Board had instituted.

Daniel F. Seward, Esq., was reappointed clerk at a salary of \$500, with an allowance of \$200 for office,

Mr. I. F. Van Duzer was re-appointed superintendent at the salary fixed by the charter, \$1,000. An allowance of \$150 per year was made for horse

Special meetings shall be called by the President upon the request of three members of the Board.

A resolution was passed requiring all bills to be audited in open Board, except salaries, fixed charges and Superintendeut's incidental expenser, which may be paid on order of the President.

It was ordered that maps, books and papers belonging to the Board

A resolution was offered to the effect that any action taken by the Board should require three affirmative votes. Mr. Rogers moved to lay the matter on the table for future consideration. The latter motion was lost and the original motion carried, Messrs. Rogers and Fellows voting nay; Messrs, Boak, Stratton and Douglas voting aye.

The following resolution was unan-

imously carried: Resolved, That this board deems it a pleasure and a duty to now place upon its records the grateful recognition of the faithful and valuable services rendered this city by Jesse W. Canfield, as member and as President of the Board of Water Commissioners. The large amount of time so freely and cheerfully given by him, at personal sacrifice, to the advantage of its business affairs and watchful care by him over the prop erty and interests coming under his supervision, and the careful consideration given by him to every detail pertaining to the development and improvement of the water system and the integrity which he has shown in the discharge of his duties are deserving of the highest com-

Board. The clerk reported that the annual report was ready to file with the Common Council.

The boat house at Monhagen Lake was ordered to be torn down at once. Supt. Van Duzer was instructed to measure lines where large extensions are required during the present year; also to measure the amount of wood pipe, cement pipe and such other kinds of pipe which it may be necessary to replace; also to report the dead ends of the water mains, and submit the whole at a special meeting to be held April 20th.

Several communications were received asking for extensions of the water mains, all of which were deferred until the above report is made. Application was made to connect two houses on one tap, but as the rules provide that this shall not be done, the application was refused.

LITTLE STARTS A FUSS.

Homemaking and Homekeeping Built on Trivialities.

Men and women don't need to swing clubs to break up home concord. A sneer and a waspish tongue will be quite as effective. Sarcasm and nagging are to the atmosphere of love what sand flies and fleas are to summer. Who would not prefer an occasional brush with a roaring June bug to the torment of a flea you can't catch?

Unjudged, accepted, trusted to the end, A man must hold his friend.

There is more than one virtue that has gone out of date along with town pumps and tallow candles. There is the old fashioned trick of loyalty to one's friends. There are plenty of friendships which, like costumes, are put on and off to suit circumstances, but the custom of "sticking up" for a friend, as our grandmothers called it, through all trouble and calumny, whether deserved or not, went out with calashes and knee buckles. How many understand the deep and delicate meaning of the words Ruth spoke so long ago to Naomi, "Thy friends shall be my friends?" We all of us number so called friends upon tho ephemeral records we keep whose lips are ready to traduce, unchallenged by us, the names of others for whom we vow an equal regard. It should be as impossible for us to listen to a word of reproach against any one whom we love as it would be to say the slanderous thing ourselves. What does the sensitive plant do when rude touch approaches its blossoms? Just what we should do when the breath of scandal touches our

If loyalty is out of date, so is modesty. I do not allude to the modesty that would interfere with a woman's plan to go balf dressed into a theater box or to a public reception. I pass that by and take up the question only of such modesty as keeps a young girl diffident and preserves bashfulness in a boy like the bloom on a plum. "He is green!" you say of sue and such a one. So is April! Who would not prefer such hay and a midsummer drought? Never condemn a young person because there is enough sap left in his soul to flutter

greenness to the withering blight of a green leaf late in the season. I love to see that modesty which makes a youth deferential to his elders. It's horribly out of date, I know, but I love bashfulness and modest, unascuming ways are mighty sweet to see. - Amber in Chicago Times-Herald.

To Start the Story.

In writing a story there are authors who do not plan the course of events in advance because they do not know them, but they write on, certain that some ingenious complication will suggest itself-in short, the story is to write itself.

I confess I believe in and rather follow this system, for the reason that the incidents seem more like real life where the unexpected so often happens, and where events turn up in a capricious way. However this may be, I have always found that everything depends on getting well started—that is, started with such eagerness and enthusiasm that you could sit down then and there and write on and on to the end.

Others deliberate and potter, as it were, hover on the brink, hesitating to make the plunge. The moment of departure is put off and put off, and when at last a start is made it becomes a task and a drudgery and is virtually no start at all, because it is so labored and uninspired that you feel you have not begun.—"Memoirs of an Author," Percy

You will cat little; you will need but small

"TOOK THE WRONG MEDICINE."

Why This Headline So Often Appears In the Dally Newspapers. It is an odd trait in human nature

that a man who has been ordered by his physician to take paregoric will never take it if there is any carbolic seid or prussic acid in the house that he can absorb in preference.

Statisticians who have studied the thing declare that an invalid will search the whole house for a poisonous drug and drink it rather than the medicine ordered by the doctor. The death notices in the newspapers in cases of that kind are generally headed, "Took the Wrong Medicine."

A man arrived at his home the other evening, and glancing on the bureau saw a bottle of liquid that he had been ordered by the doctor to take.

"That looks like the stuff," said he, but I'm not sure. As I was locking up the cellar I saw behind an old shelf a blue bottle that looked as if it hadn't been touched for years. It said on it, 'Sulphuric Acid.' Now that bottle on the table looks exactly like the one I drank out of last night, but still I have an idea that the stuff down in the cellar is what the doctor means for me. I don't know how the dickens it got down there when it's meant for me to take, or how this bottle that isn's eneant for me to take got on this bureau. But I'm not going to take any chances. I'll just go down into the cellar and make sure, and I'll throw this stuff out of the win-

Then he cautiously went down stairs and took the sulphuric acid, and be was buried in due form after an ambulance surgeon had done his best and the coroner's physician had made a complete investigation and autopsy.

It isn't only children who make these blunders. Doctors will tell you that they have only to label a bettle "Lotion, For External Application Only," to make sure of its being drunk. If a patient gets a bottle of corrosive sublimate to put on a felon on his great toe and doesn't use it all, he will carefully save it. Ten years afterward a doctor gives some cough mixture to him, and then he goes and hunts up the corrosive sublimate bottle, plays three card moute with it and the cough mixture, gets them thoroughly mixed up so that he can't tell one from the other, and then when he feels that tightness across the chest that the doctor told him about he swallows a part of the corrosive sublimate and leaves his widow to collect the life insurance. By no accident is the cough mixture ever takeu-it is always the corrosive sublimate.-New York Her-

CURIOUS WEDDING CUSTOMS.

Some Odd Phases of Social Life In Northern Michigan.

Many curious customs are in vogue among the foreign population of northern Michigan, especially in social matters. When a French couple get married, a carriage or a sleigh ride is inevitable, according to the season of the year. The couples are not packed together in one wagon or sleigh, but each fellow and his girl bave an individual rig, the bride and groom taking the lead and the others following like a funeral procession, but there is nothing funereal about it, especially the pace set. After the procession has been riding for hours,

a dance ends the festivities. The Polanders have a curious wedding custom that is very ingenious as a money getter, and takes the place of wedding presents. After the wedding feast follows a dance that sometimes lasts 12 to 14 hours, and even longer. The chief honor is to dance with the bride, and this is decided in a curious manner. The mother of the bride takes her place in one corner with a plate in her lap, which she takes very good care shall be built after the plan of an eating house coffee cup. The gallant who wants to dance with the bride, and all are in honor bound to do so at least once, must pull out a piece of silver and endeavor to chip or break the plate by throwing their money upon it, and only those who succeed in chipping or breaking the plate are allowed the coveted honor. Let those who think it easy to break an ironstone plate try it. Few succeed in doing it for less than 50 cents, and it is not an unusual thing for the bride's money to amount up to \$75 or \$100, even where the crowd is apparently as poor as a church mouse, and it may go even higher when the bride is pretty and popular. All the money goes to the bride, and in a backwoods country \$50 to \$75 will start a happy couple nicely in housekeeping. - Detroit Free

A Japanese Test For the Aspiring Bride. In Japan it appears that one factor entering into the choice of a daughterin-law is her skill in raising silkworms. There is more to this than appears on the surface of the statement, for it seems that the thread spun by a silkworm is regular and even in proportion as the worm has been regularly and carefully fed. The prospective mother-in-law carefully and minutely examines the garments of the aspiring bride, judging of her qualifications by their cordition. This seems even more absurd than the woman who said her son should never marry a woman who could not keep her top burcan drawer in order. - New York

It is Iniurious Τo Stop Suddenly

And dor t be imposed upon by buying a remedy that requires you to do so,

as it is nothing more than a substitute. In the sudden stoppage of the use of tobacco you must have some stimulant, and in most all cases, the effect of the stimulant, be it opium, morrhine, or other opiates, leaves a far worse habif contracted. Ask your druggist about "BACO-CURO." It is purely vegetable. You do not have to stop using tobacco with "BACO-CURO." It will notify you when to stop and your desire for tobacco will cease. The first boller completed was a No. 1, 350 nominal horse power, but which, in fact, has developed over 350 horse power It has been in operation at the State Hospital over ten months, and has not only done all that its inventor and the builders claimed for .t, but much more. It was recently opened and examined and to the surprise of everybody concerned, the tubes were found to be absolutely clean and free from scale and sediment, while ordinary tubular boilers would have required to be

blown out frequently. The other boiler is a No. 2, which is in the boiler house at the works. It is called a 100 horse power boiler, but has developed more than double more especially as a sample boiler, to show those interested and desiring to purchase, what the Hogan boiler can accomplish, but furnishes the necessary power and heat for the

The boiler house at the works may be said to be a show room. The testing apparatus is conveniently arranged, counters, recording gauges, scales and thermometers are found in suitable places. An ingenious arrangement of gravel sieves, which prevents any noise which might be caused by the blowing off of surplus steam when testing, is a feature which visitors will appreciate.

During the past four months cold water has been run directly into the boiler at the works and heated to 300° with\_ut the slightest injury to any portion of the boiler. This extraordinary fact has been doubted by some engineers, and on this account It has been decided to give a demorstration to prove it, and at the same time to bring the merits of the Hogan botler before mechanical engineers and those using steam. To-morrow is the date set for the tests. Invitations have been sent to eminent techmical engineers, large steam users, manufacturers and editors of the technical press, all over the country to witness it, and the people of Mid dletown, also, have a cordial invitation to be present. The number of invitations accepted indicate that there will be many present from out of town. It will be an important event to Middletown, for it is practically the starting of one of its greatest industries.

The following programme of tests has been arranged and will be carried out in the afternoon, whether many or few are present:

1. Examination of quality of steam through 1/2 inch valve. Pressure 125

2. Opening of 4 inch steam valve suddenly to atmosphere to illus rate the steadiness of the water line and the dryness of the steam under unusual conditions.

3. Use of forced draft for one hour or so, to show the quantity of water evaporated and coal used.

4 Use of induced draft for one hour or so, to show the quantity of water evaporated and coal used. 5. Use of natural draft for one hour or so, to show the quantity of

water evaporated and coal used 6 Use of side dampers by which the areas of flue openings are varied. 7. Examination with four thermometers of the temperature of water entering boiler from external inductors with feed water, (at from 490 to 500 Fahr) passing through external inductors, and without feed water passing through external insluctor, the same steam pressure to be maintained on steam guage durng both examinations. By these experiments it will be shown that the

of feed water heaters. 8 Use of internal inductor with

9. Blowing off from and blowing through internal inductor while boiler is running with mud-drum shut off and mud-drum cover remov-

Their Record at Bloomingburgh—Paid a Store Bill With Chickens and Then Stole the Chickens - Plunder from Bennett's Hotel,

Officer Sharpe and Mr. Frank R. Bonnell visited Bloomingburgh, Saturday afternoon, in the hope of finding some trace of the missing articles of jewelry, which, it was supposed, the burglar Ashley had disposed of in that village. Ashley lived in Bloomingburgh for a short time and is known to have visited there recently. They failed to locate any jewelry, but the visit was the means of unearthing more of Ashley's ras-

Ashley had incurred quite a debt to J. E. Winters & Son. merchants of Bloomingburgh, and as a part payment turned over to Mr. Winters a number of game chickers and fowls. The next night the chickens were stolen. Ashley was not suspected, but when Officer Sharpe told Winters of the chickens that were roosting in Ashley's garret, in this city, the latter same here and identified his property.

It is said in Bloomingburgh that the couple are not married and that the b y is not Ashley's son. The boy has gone to relatives at

Campbell Hall. While in Bloomingburgh the pair worked for Hotel Keeper John F. Bennett, He told Messrs. Bonnell and Sharpe that the woman had never done anything wrong there and that nothing had ever been stoler, and was surprised when told that there were several white shirts marked "John F. Bennett" found that power. It was constructed in the Ashley home; also several white skuts handsomely embroidered, but unmarked and far too expensive for a woman in Mrs. Ashley's walk of life. They are supposed to

belong to Mrs. Bennett.
